My Cyprus adventure - English & Sea & Sun

Project „We are together”

Intensive English Course, 3 – 14 June 2024, Limassol

Course has been organised
within the project
**„Transnational educational mobility
of pupils and school education staff”,**
co-funded by the European Union through
the European Social Fund Plus, European
Funds for Social Development 2021-2027.

Bayswater (English in Cyprus) is the leading English language school for international students in Cyprus.

The school is located in Limassol.

Classes at school were held every day from Monday to Friday. Students were assigned to groups based on their language skill level.

The school also offered participation in optional trips.

There is a bus stop next to the school.

Discovering Cyprus is an extremely intense and wonderful experience - culture, traditions, nature and food. I constantly had the opportunity to practice my English skills.

I met many people from different countries.

Language barrier was broken - I asked, I spoke, I listened.
I communicated effectively and confidently in English.

Friendly people, amazing views
and wonderful sea
will remain in my heart.

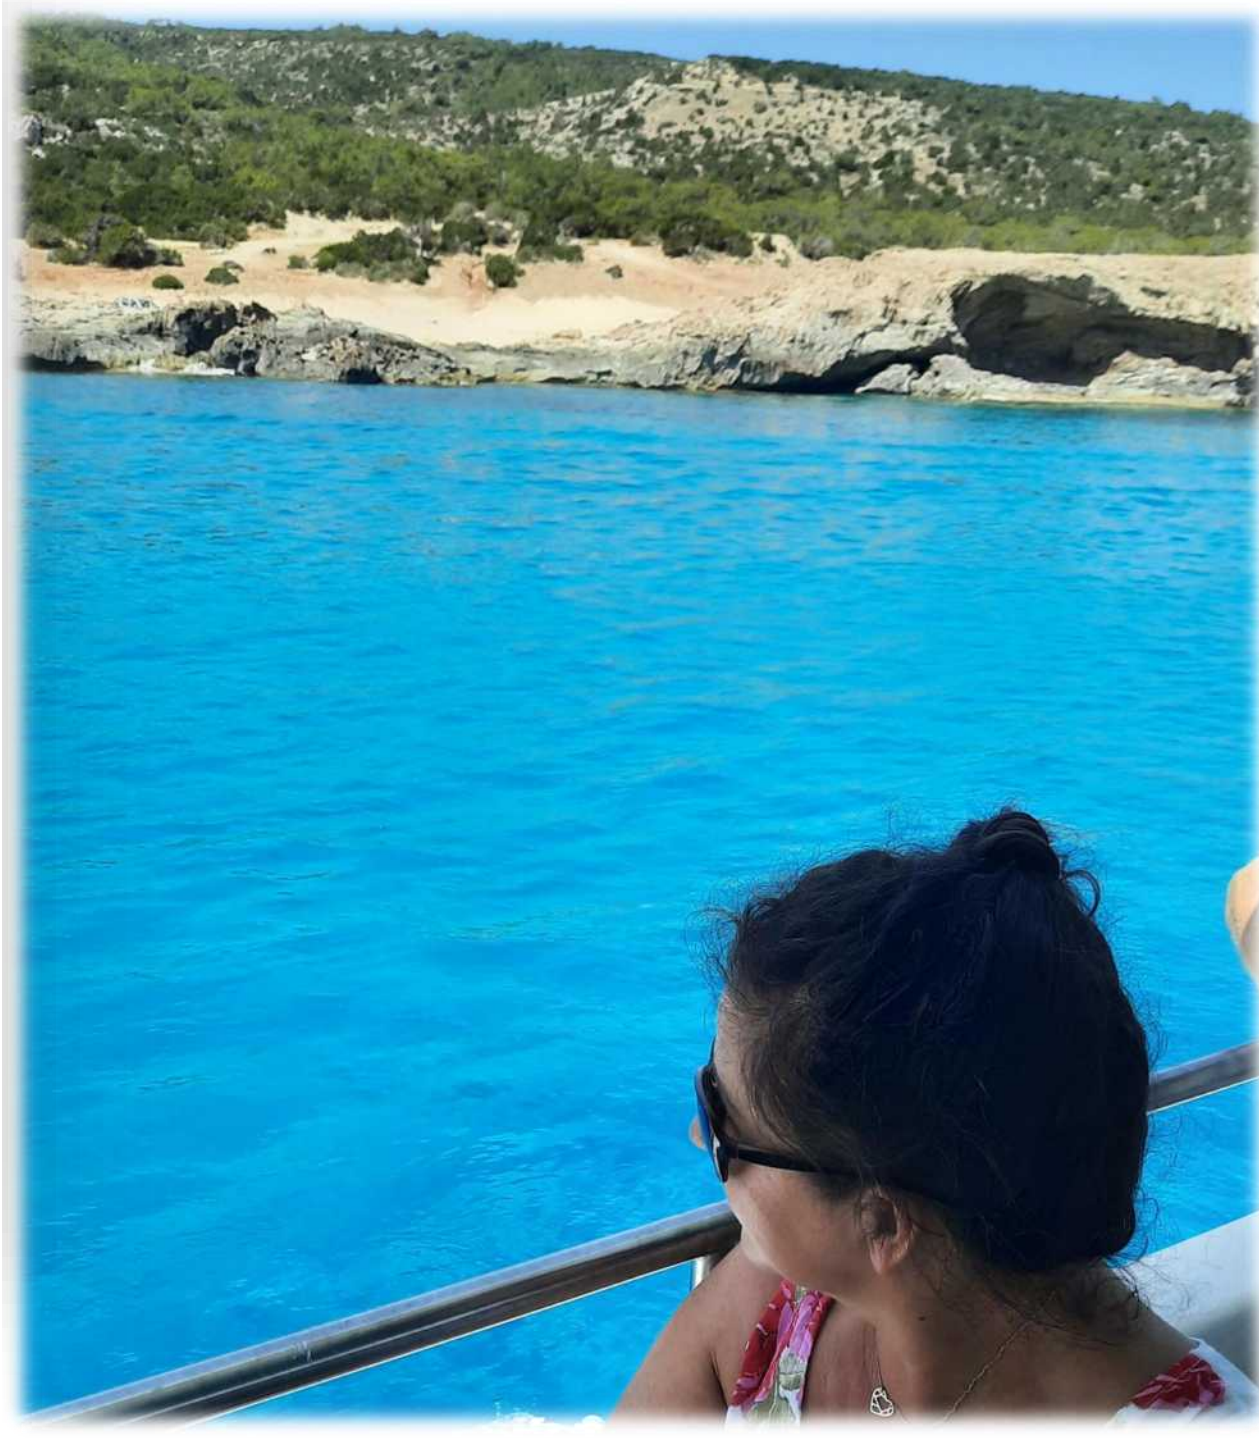

For me, mobility in Cyprus was an excellent opportunity to improve my English skills in practice.

I feel even more motivated to continue learning the language.

I will feel more confident when undertaking European educational projects.

Contacts with others, exchange of experiences, conversations - priceless ;)

Cyprus - a wonderful island.

I hope to go back there again.

My „Cyprus Team” are Lucyna, Aneta and Marzena.
Girls - thank you for the time together
and the adventure ;)

Thank you for your attention

Renata Tuszyńska
