Project – *„We are together”*

at Cyprus

November 2023

# Place of the course

In November 2023 I had a chance to attend English course, which took place at ELC The English Learning Centre at Cyprus in Limassol.

# International integration

During the trip I have met  
a lot of people  
from different nations.

It was a great experiance and  
opportunity to learn something  
new about other cultures  
and countries.

# Graduation

At the end, everyone who has finished the course received Certificate.

# Free time

Between the classes together with my colleagues, we had time to have some walk around and sightseeing the neighborhood. The region and views were amazing some as food!

# Summary

It was really worth to take part  
in this trip and course.

It expanded my English skills  
and self-confidence.

Beside that, I brought new  
friendship with me.

Thank you for attention!
